

Your Event

The beautiful combination of flute and guitar can provide an elegant musical choice not only for weddings, but also for your dinner party, reception, or other special occasion.

The Primrose Duo can set just the right mood, help your guests relax and reflect your feelings and personality through their very expressive sounds.

Both musicians have many years of professional experience playing in a variety of settings and are versatile, not limiting their repertoire to strictly classical music.

The Primrose Duo

Phyllis Nefsky specializes in the art of flute and guitar performances. With a classical background, she has founded several duos performing in diverse venues such as festivals, weddings and special events throughout New York City and Los Angeles. In addition, she has played in Broadway show ensembles and orchestral settings. Phyllis worked as a music therapist for many years and understands the powerful effect of music. She presently works as a sales manager for the world-famous Furnace Creek Resort in Death Valley National Park while maintaining an active musical career in the Death Valley area.

LaVerne Christie studied classical guitar with Jeffrey Van, has played in master classes with world-recognized guitarists including Grammy winner Sharon Isbin, given recitals and played solo guitar for countless occasions, including weddings at Caesar's Palace. She also leads her own jazz trio which performs routinely in Las Vegas. The trio's cd "*East of the Sun, West of the Moon*", released in 2007, received widespread critical acclaim and heavy airplay in the U.S. and Canada.
